

Resources Within the Mile-High RETAC
For
Mile-High RETAC Teen Seat Belt Challenge

This is a request to identify resources within your facility or agency that can be scheduled by the teens developing the individual programs at their participating school. Resources might include videos, curricula for programs they can reproduce internally, potential speakers on various topics etc. We want to offer a wide variety of choices, hopefully within each county.

Hospital or Organization Name: _____

Contact name and best way to contact: _____

Program Name: _____

Program Description: _____

What can you specifically provide (equipment, personnel, speaker etc): _____

Including information such as the number of people needed to be involved, specific skills required of the participants, assets required to use the resource (LCD projector, DVD player, microphone for a speaker, fatal vision goggles for an activity etc) as well as expected results/outcome of the program will be helpful.
